I am proud to endorse Kathryn Royer for Mayor of Cave Creek.

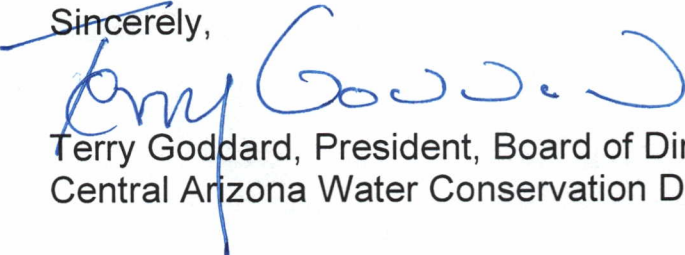

I know Kathryn best from her many years as a top official of the Central Arizona Project. She was CAP's first Director of Communications and part of the Senior Management Team. That Team was responsible for leading the organization through multiple conflicts and controversies.

Kathryn was blessed with the ability to navigate difficult issues. She learned the complex business of water management, delivery and sustainability to become literally the "Voice of CAP". Even ten years after her retirement, her contributions at CAP are still felt and valued.

After CAP, Kathryn served 8 years on the Cave Creek Council. As an elected official, she excelled at effectively using taxpayer funds to win intelligent, long-term results. She was fundamental in ensuring the Town created its own fire department without a property tax and supported the preservation of 4,005 acres of State Trust Land to protect open space. She has been a leader in the effort to protect Cave Creek's water supplies from possibly severe cuts in the CAP allocation due to drought on the Colorado River by banking excess Colorado River water underground and seeking out alternative sources of water.

I endorse Kathryn Royer for Mayor of Cave Creek so she can continue to bring innovative solutions and transparent government to the Town, especially in the critical area of long-term water management. Kathryn exemplifies the best in public service. She is a valuable asset for your community, just as she was for the CAP.

Sincerely,

Terry Goddard, President, Board of Directors
Central Arizona Water Conservation District (CAP)
